Professional Summary

Enterprise Architect and Power Platform Solution Architect with 15 years of IT experience, including 6+ years in Microsoft Power Platform and Office 365. Proven expertise in defining solution and enterprise architectures, governance frameworks, and delivering enterprise-scale applications across Power Apps, Power Automate, Power BI, and Dataverse. Strong background in Microsoft 365, Dynamics 365, Azure, and SAP integrations. Skilled in stakeholder engagement, executive presentations, and enterprise adoption. Recently transitioned into Enterprise Architecture, leading HR landscape planning (current & future-state) and responsible for Software Architecture Documents (SAD) using arc42.

Core Skills

- Architecture: Enterprise & Solution Architecture, SAD (arc42), reusable frameworks, TOGAF concepts
- Power Platform: Power Apps (Canvas/Model-Driven), Power Automate, Power BI, Dataverse, Copilot Studio
- Governance: Environment strategy, ALM, DLP, licensing, security & compliance
- Integrations: Microsoft 365, Dynamics 365, Azure, SAP, REST APIs
- Leadership: Stakeholder management, executive-level workshops, mentoring, team enablement

Professional Experience

Enterprise & Power Platform Architect – Volkswagen IT Services (VWITS) | 12/2020 – Present

- Defined solution architecture and governance for 19+ operational and 11+ new Power Platform applications.
- Architected and delivered enterprise solutions integrating Dataverse, Dynamics 365, Azure, and SAP.
- Established ALM, DLP, environment, and security frameworks for global applications.
- Conducted executive-level workshops for leadership to drive Copilot and Power Platform adoption.
- Enterprise Architecture: Led HR landscape planning to define current and future-state architecture; authored SAD using arc42.

Senior Technical Lead – Birlasoft | 11/2016 – 12/2020

- 2018 – 2020: Transitioned into Power Platform; delivered enterprise apps with ALM, Azure DevOps, compliance frameworks; guided teams in solution delivery.
- 2016 – 2018: Specialized in SharePoint migration, administration, and global support. Applied ITIL processes, led support teams, and trained engineers.

Associate Projects – Cognizant Technology Solutions | 04/2010 – 11/2016

- Built enterprise applications using SharePoint & .NET.
- Automated administrative tasks using PowerShell.
- Implemented migration and workflow automation projects improving efficiency.
